

「心清ら Victory 48 勝目」で、「海外外国語研修」について紹介しました。その時、代表スピーチをした川端さんから、実際に話したスピーチをもらうことができたので、本人の許可を得て、ここに全文を掲載します。

Good morning everone. I am Yuko Kawabata from Ono senior high school.

I am speaking as the representative of all students here,who are going to visit Canada next month.

First, I would like to express our deep gratitude to all the people involeved in this program;the staff in the Fukui Prefectural Office,who gave us the chance to study English in Canada,the ALTs who helped us in the workshops,the JTEs at our high schools,and our parents.

I think the main goal for this program is,of course,to improve our English skills.

Studying abroad is our chance to learn practical English, not English from a textbook, so I'd like to learn as many things as possibie . In order to do so, it is important to express my feelings and opinions.

And this time isn't just about creating memories, it's about learning.

We should make use of this experience for our future.

Whether we make the best of this opportunity or not depends on each person, so let's try everything this program has to offer.

Thank you.
